

SUMMARY INFORMATION

Michael R. Greenberg

BA: Hunter College, 1965, Concentrations in math and history

MA: Columbia University, Urban geography; Ph.D.: Columbia University, Environmental and medical geography, 1969

Distinguished Professor, Edward J. Bloustein School of Planning and Policy, Rutgers University, 1983-present

Interim Dean, Edward J. Bloustein School of Planning and Policy, Rutgers University, July 2017-September 2018

Associate Dean of the Faculty, Edward J. Bloustein School of Planning and Policy, Rutgers University, 2000-June 2017

Director, Environmental Assessment and Communications Group (EAC); 2007-June 2018.

Merged under EAC: Director, National Center for Neighborhood and Brownfields Redevelopment, Rutgers University, 1997-2007; Director, Center for Transportation Safety Security and Risk, Center of Excellence for USDHS, 2008-June 2018.

Adjunct Professor of Epidemiology, School of Public Health and Rutgers Liaison to School of Public Health, 1999-2007; Adjunct Professor of Environmental and Community Medicine, 1999-present; Member University Center for Disaster Preparedness and Emergency Response, 2009-present

RESEARCH AND TEACHING INTERESTS

Risk analysis, environmental health policy, environmental planning and management

ILLUSTRATIVE AWARDS AND SERVICES

*Special Award of Merit from the United States Environmental, Protection Agency for education/research, 1977

*Board of Trustees Award for Excellence in Research, Rutgers University, 1984

*Special Award for Journalism for Environmental Risk and the Press, Sigma Delta Chi, Society of Professional Journalists, 1988

*Special Award for Journalism for The Environmental Reporter's Handbook, Sigma Delta Chi, Society of Professional Journalists, 1989

*Presidential Award for Public Service in public health and the environment, Rutgers University, 1992;

*Distinguished Scholar Award, Association of American Geographers, 1997

*Jerome Rose Distinguished Teaching Award, Bloustein School, Rutgers University, 1997

*Dennis J. Sullivan Award, New Jersey Public Health Association, 2001

*Honorary member of Delta Omega (Public Health), 2003

*Distinguished Career Achievement Award, International Society for Risk Analysis, 2003

*Faculty Scholar-Teacher Award, Rutgers University, 2006-07

- *Clarkson Distinguished Visiting Professor, SUNY, Buffalo, October 22-26, 2007
- *Professor of Environmental Civil Engineering, Vanderbilt University, 2009-2010
- *Fellow, Society for Risk Analysis, 2009
- *Member, State of New Jersey, DEP Science Advisory Board, 2010
- *Member, Science Advisory Board of the B. John Garrick Foundation for the Advancement of the Risk Sciences, 2010
- *Special award for best review of the book the “Bet,” Society for Risk Analysis, 2015
- *2016 best reviewer of the year, Society for Risk Analysis, 2016

- *Director or co-director, New Jersey Graduate Program in Public Health, 1983 until it became a school in 1999;
- *Academic Liaison to School of Public Health, 1999 until it joined Rutgers in 2014
- *Director of Public Policy and Education Division, NSF-Industry/University Cooperative Center for Research in Hazardous and Toxic Substances, 1983-2000;
- *Director, Environmental Policy Division, EOHSI, 1989-2000;
- *Co-Chair, Medical Geography Specialty Group, Association of American Geographers, 1986-88;
- *Founding Chair, Advisory Group on Cancer Prevention and Control to New Jersey Commission on Cancer Research, 1987.
- *Member, Council of Academic Policy Advisors to the New Jersey Legislature, 1998-2000
- *Site Visitor, Council for Education for Public Health: Saint Louis University (1996), Arizona (1997), Kansas (1998); North Texas (1998); SUNY-Albany & NYS Health Department, 2001
- *Special consultant to State of Colorado in their effort to create a new multi-university school of public health (2006); University of Minnesota School of Public Health (2007)
- *Member, US Environmental Protection Agency, Science Advisory Board, Risk Reduction Options Committee, June 1996-February 1997
- *Member, Board of Scientific Councilors, Lab Review subcommittee, 2001
- *Member, National Research Council, Committee on Remedial Action Priorities for Hazardous Waste Sites, Board on Environmental Studies and Toxicology, 1992-1994
- *Member, National Research Council, Committee on Review and Evaluation of the Army Chemical Stockpile Disposal Program, Board on Army Science and Technology, 1996-2001
- *Council member, Society for Risk Analysis, 1999-2002
- *Co-chair, Smart Growth Transition Team, Governor-elect Jim McGreevey, 2001
- *Associate editor for environmental health, American Journal of Public Health, 1998-present
- * Editor-in-chief, 2008 to 2013; Editor for social sciences, Risk Analysis, 2002-2008;
- *Member, National Research Council, Committee on Predicting Outcomes of Investments in Maintenance and Repair for Federal Facilities, 2009-2011
- *Member EPA SAB environmental justice technical panel, 2012-2014
- *Richard J. Burk Outstanding Service Award, Society for Risk Analysis, 2013
- *Member, National Research Council, Committee on Scientific Tools and Approaches for Sustainability, 2013-2014

- *Chair, Omnibus Review Committee, A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites, 2014-2105 for Appropriations Committees of the U.S. Senate and House of Representatives
- *Member, National Research Council, Committee on Plutonium Disposition, 2017-18
- *Member, National Research Council, Committee on Decision-Making Approaches for U.S. Government Agencies, 2018-present
- *Award as Livingston College Legacy Faculty Member from Livingston College Alumni Association, March 2018

JOURNAL EDITORIAL POSITIONS

Accountability in Research (1990-2000); Environmentalist (1980-2007); American Journal of Health Behavior (1988+); Health Behavior and Policy Review, founding associate editor (2013+); Planning Literature (1985-1996); Socio-Economic Planning Sciences (1986-2012); American Journal of Public Health, 1998+ (associate editor for environmental health); Human Ecology Review (1999+); editor for social sciences, Risk Analysis, (2002-2008); Editor in Chief (2008-2013); Head of advisory board to editor, 2013+.

ARTICLE REVIEWER FOR

American Journal of Public Health; Annals of the Association of American Geographers; Applied Demography; Carcinogenesis; Disaster Medicine and Public Health Preparedness; Economic Geography; Energy Policy; Environmental Health Perspectives; Environment and Planning A; Environment and Planning B; Environmental Impact Assessment Review, Environmental Planning and Management; Environmental Management; Environmental Management Review; Environmental Practice; Environmental Research; Epidemiology; Geographical Review; Growth and Change

Health Education Quarterly; Health Education Research; Housing Policy Debate; Housing Studies; Human Ecology; Human Ecology Review; Journal of Aging and Social Policy, Journal of the Air & Waste Management Association; Journal of the American Institute of Planners; Journal of Dental Education; Journal of Dental Research; Journal of Exposure Analysis and Environmental Epidemiology; Journal of the National Cancer Institute; Journal of Planning Education and Research; Journal of Public Health Policy; Journal of Rail and Rapid Transit; Journal of Regional Science; Lung

Milbank Quarterly; Management Science; Medical Geography; Natural Hazards Review; Population & Environment; Preventive Medicine; Professional Geographer; Public Works Management and Policy; Risk Analysis; Risk: Issues in Health and Safety; Rural Sociology; Science Communication; Science, Science of the Total Environment; Statistics and Medicine, Social Science Quarterly; Technology & Human Values, Social Science and Medicine; Urban Ecosystems; Urban Ecosystems, Urban Geography; Urban Affairs Review; Urban Studies

TEACHING

Fall: Advanced Multivariate Statistics (Taught in Spring 2017)

This course introduces students to some of the most widely used multivariate methods: factor analysis, discriminant analysis, and multiple regression analysis using components as independent variables. Students gather their own small data sets and run the analyses on these data sets using SPSS or SAS. Each student submits two papers summarizing their results and makes at least one oral presentation. Emphasis is placed on the advantages and disadvantages of these methods and the issues of missing data, the form of the data, and interpretation of the results.

Spring: Protecting Community Health (last taught Spring 2005)

This course describes how environmental health policy is made and how this relates to urban revitalization. We discuss health/safety/environmental protection, economic feasibility, legal/political feasibility, benefits/costs, ethical imperatives, time pressure, and flexibility as criteria used by decision-makers. We use waste management or another topic to illustrate the interplay of these criteria in the United States. Students submit 2 papers, which evaluate resident perception of neighborhood quality in light of what they have learned.

Spring or Fall: Introduction to Planning, Policy and Health (began teaching Spring 2006)

Introduction to the major subject areas taught by the Bloustein School. Developed framework based on environmental policy experience that introduces the concepts that most strongly influence policy. These are elected officials/senior staff, non-government interests, public concerns, science, ethics, economics, and time/flexibility. Currently teaching in Spring semester.

Fall: Environmental Planning and Management (originally taught in 1973, started teaching again in Spring 2009)

Introduction to factors that influence environmental plans and tools used in designing them. Students select a planning question and do an evaluation of the six key criteria that influence decision-making about that question. Lecture for first half of class and give students a policy challenge that they analyze and present in the second half.

DOCTORAL STUDENTS (*=major advisor) [78]

Newton Levine, planning, Columbia University, 1972*
Hiroko Sakai, geography, Columbia University, 1972*
Thomas Angotti, planning, 1973*
Ethan Smith, planning, 1974
Simeon Hook, planning, 1976
Jon Weyland, planning, 1977
Ronald Foresta, planning, 1978
Charles Koebel, planning, 1979
Ademoula Salau, planning, 1979*
Robert Ziegenfus, geography, 1980*

George William Page, planning, 1980*
Michelle Frumkin-Rosengaus, geography, 1980
Richard Anderson, planning, 1981*
Catherine McVicker, geography, 1983*
Beth Krugman, planning, 1985*
Nancy Neuman, geography, 1986*
Donald Rebovich, criminal justice, 1986
Felix Barreto, planning, 1986
Dona Schneider, geography, 1988*
Erik Dienemann, chemical engineering, 1989

Anthony Mason, geography, 1989*
Jon Erickson, planning, 1989*
Tracey Clapp, chemical engineering, 1989
David Rose, planning, 1989*
Enid Lotstein, geography, 1990
William Solecki, geography, 1990
Glen Belnay, planning, 1991*
Bernadette West, planning, 1991*
Craig Nessel, public health, 1991
Kandice Salomone, public policy, Syracuse University, 1992

Michael Zelinka, environmental science, 1992
Nicholas Lawryk, public health, 1994
Lynn McGrath, public health, 1995
Jessica Sanchez, planning, 1996*
Karen Lowrie, planning, 1996*
Nevin Cohen, planning, 1996*
Roger Balm, geography, 1996

Ann Curley, 1996
Jonathan Feldman, planning, 1997
Alan Frei, Geography, 1997

Selected talks 2010-2018

Presentation with Dona Schneider, Urban Planning, Public Health, & Redevelopment, Trenton, NJ, Office of Legislative Services, March 23, 2018.

Presentation to NJ TV news about implications of Portal Bridge failure, March 18, 2018. Shown following week.

Presentation: Persuading elected officials and staff about the value of science, Arlington, Va. Society of Risk Analysis, Annual meeting, December 12, 2017

What priorities currently exist for environmental health, Advocacy group against war, reformed Church, Highland Park, NJ December 2, 2017

Podcast, Risk analysis and homeland security, January 26, 2017

Briefing US GAO, Health, safety and economic cites, Washington DC, GAO building, August 17, 2016.

Whither Risk Analysis, Annual Meeting of the Society of Risk Analysis, December 7, 2015. Session on Foundations of Risk Analysis. Arlington, VA.

HIA in context. Presentation, Annual Meeting of the American Public Health Association, Chicago, IL, November 2, 2015.

Briefing U.S. Senate Arms Services Committee about “A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites.” December 15, 2015.

Briefing U.S. DOE deputy assistant secretaries about “A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites.” December 15, 2015.

Briefing of U.S. DOE site managers about “A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites.” October 13, 2015.

Briefing of U.S. House Appropriations Committee about “A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites.” September 28, 2015, Rayburn Building, DC.

Briefing of DOE-EM and EPA leadership on A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites. Report prepared from U.S. Senate Committee on Appropriations and U.S. House of Representatives Committee on Appropriations, Washington, D.C., September 22, 2015.

Briefing of House of Representatives, Appropriations Committee on A Review of the Use of Risk-Informed Management in the Cleanup Program for Former Defense Nuclear Sites. Report prepared from U.S. Senate Committee on Appropriations and U.S. House of Representatives Committee on Appropriations, Washington, D.C., September 28, 2015.

Mental Health Symptoms Among Seniors following Hurricane Sandy, Denver, Colorado, Society for Risk Analysis, annual meeting, December 10, 2014.

Revisiting New Orleans a decade after Katrina, status and preparedness. New Orleans, Louisiana, American Public Health Association, November 17, 2014. John Renne and Marla Nelson co-speakers.

Predicting Preparedness and Predicting Altruistic Behavior, Society of Risk Analysis, Annual Meeting, Baltimore, MD, December 10, 2013.

Are people willing to pay for sustainability? Post Hurricane Sandy and Tropical Storm Irene data from New Jersey, USA. 6th International Conference on Sustainable Energy and Environmental Protection, Maribor, Slovenia, August 21, 2013.

Stakeholder Understanding, Communication and Involvement, Presentation to Senior staff of Department of Energy, Environmental Management, Washington, DC, August 7, 2013.

Predicting Individual Preparedness & Assistance: Sandy and Irene Experiences, Conference on S&T Innovations in Hurricane Sandy Research, June 5, 2013.

Results of Statewide Polling on Sandy and Irene, Climate Change Preparedness in New Jersey, Leading Practice and Policy Priorities, May 22, 2013.

US public preferences, perceptions, and trust of the USDOE: Pre and Post Fukushima. February 26, 2013 (with Charles Powers and David Kosson), WM symposium, Phoenix, AZ.

Building useful simulation tools for risk analysis: a major challenge & a rail security example, Fields Institute, University of Toronto, Canada, Keynote conference, Third International Conference on Complex Science, Management & System Engineering in Risk Management, October 26, 2012.

Dreams and nightmares: nuclear power and waste management. Keynote talk at SRA Europe Conference, Zürich, Switzerland, June 20, 2012.

Public preferences for nuclear power and expansion of on-site nuclear-related activities: pre-and post-Fukushima, Washington DC, January 26, 2012, George Washington University for the SRA.

Public preferences for nuclear power and expansion of on-site nuclear-related activities, Chatanooga, TN: TVA headquarters, December 20, 2011.

Nuclear power & waste management survey research: what have we learned about people who live near nuclear facilities? Washington, DC: for Assistant Administrator for Nuclear Energy, December 14, 2011.

Rail security simulation modeling, December 9, 2011, at 9/11 – 10 years later, A national Conference on Preparedness and Response, New Brunswick, NJ
Smart model for corridor resilience: North corridor prototype, Arlington, VA.: USDHS headquarters. July 21, 2011.

Choosing an economic consequences simulation model for rail security, RWJH, July 14, 2011.

Energy and Health Choices, Risk and the Media, Lehigh University, April 8, 2010

Low Carbon Economy, North China Electric Power University, June 3, 2010, Beijing

Being proactive about risk assessment, National Institute of Engineering Management, China National School of Administration, June 4, 2010, Beijing

Why projects fail. Xinhua School of Finance and Insurance, Zhongnan University of Economics and Law, June 6, 2010, Wuhan

The economic impact of large environmental projects. School of Management, Wuhan University of Technology, June 7, 2010, Wuhan

Economics simulation models and risk analysis. School of Business Administration. Hunan University, June 10, 2010, Changsha

Understanding the economic consequences of hazard events. Jiatong University. First international risk management conference. Second keynote. June 12, 2000, Chongqing

CRESP surveys, 2005, 2008, 2009, 2010: What have we learned and what do we need to learn, Nashville, TN, Vanderbilt, October 19, 2010.

Nuclear power and waste management survey research: What have we learned about people who live near nuclear facilities? Princeton, NJ Woodrow Wilson School, October 20, 2010.

Common issues that challenge translating the best science and practices to surface transit security organizations and staff, Washington, DC, DHS, October 22, 2010.

Searches- grad school dean 2008-2009; IWL head, 2010; EOHSI head 2009-2010, EJB Dean 2016.

A set of blended risk-based decision support tools for protecting passenger rail-centered transit corridors. Panel 15, the DHS science conference-fifth annual University network summit, Washington

DC, April 1, 2011.

Risk-based decision-making with uncertainty: Peeling back layers of complexity, June 2, 2011, Nashville, TN, Global Climate Change and Transportation Infrastructure Summit

Risk versus business requirements: industry perspectives, chaired panel and presented talk at second annual maritime risk symposium November 7, 2011.

Promotion committees within RU outside of EJB or outside RU: Helen White 2010-11, Mark Huselid 2010-11, David Lepak, 2013, Patrick Gardner 2014, Marsha Bates, 2015, Kenneth Joh, Texas A&M, 2016, Gregory Camilli, school of Education, 2016

2016: External letter writer for Mary Northridge, NYU, Samina Raja. SUNY Buffalo, and Lucien Lauren, Iowa.
