Careers in Hazard Mitigation & Climate Resilience Planning Alumni Panel

Careers in Hazard Mitigation & Climate Resilience Planning

Panelist and Participant Bios

Brittany Ashman (MCRP ’13) AICP, LEED GA
Senior Planner | Michael Baker International

Brittany Ashman is a certified city planner with more than six years of professional public and private sector experience. Brittany currently works at Michael Baker International as a Senior Planner,

focusing on local and state-level resilience and hazard mitigation planning. She has been responsible for developing the Monmouth County Hazard Mitigation Plan, the geo-coupled Rapid Mitigation Action Risk, and Route 36 Study for Coastal Resilience Planning Study. Previous work experience includes due diligence and permitting of commercial development at Greenstreet Landscapes and Environmental Planning at the Monmouth County Planning Board. While at Monmouth County, Brittany co-authored the Community Risk Scorecard, which has been a pivotal tool in improving state and local resilience planning. Brittany also serves on the Asbury Park Board of Adjustment.

Zaki Udoo-Espinal is the Resilience Projects Manager at the Atlantic Risk Management and Division of Emergency Services. He is working on creating an action plan with New Jersey’s Risk Management Plan. He previously served as a Research Assistant at the Marquette University’s Center for Risk Management. Prior to joining the Risk Center, he spent six years in New Jersey. His work has been focused on creating a comprehensive and sustainable strategy for addressing climate change and natural disasters. He has a Master’s degree in Public Policy from the University of Pennsylvania and a Bachelor’s degree in Environmental Science from the University of Michigan.
