

Planning, Public Policy, and Social Theory

Fall 2021 Monday 9:00-11:40 34:762:624 (doctoral)/833:624 (policy) /970:624 (planning)

Kathe Newman, Professor knewman@rutgers.edu

Office Hours: Mon 12:15-3:00 and by appointment

Purpose

This is a seminar course to introduce you to theories and assumptions about social theory and to challenge you to think about how you think. Theory is developed and used for a variety of purposes. It can help us make sense of the complicated world around us. It can isolate particular aspects, especially ones that are hard to envision such as structure. Though some social theories are built on “universal” ideas about human nature or ideas of justice, for example, other theories emerge as people work together to make sense of how we understand the world today and what we want it to be like in the future. We will think about where theories come from and why and we will consider power, politics, structure, difference and how ways of thinking become institutionalized.

Planning Advisory Board Core Competencies (PABCC)

This course addresses all three of the Planning Advisory Board’s “required components.” Stressed competencies are highlighted in bold.

- 1) General knowledge: a) Purpose and meaning of planning; b) Planning theory; e) The Future, and f) Global Dimensions.
- 2) Planning Skills: b) Written, Oral and Graphic Communication.
- 3) Values and Ethics: b) Equity, Diversity and Social Justice, c) Governance and Participation, e) Growth and Development.

Learning Objectives

- 1) Introduce you to social theory and ways of thinking about the world (PABCC 1a, b, e, f; 3 b, c, e).
- 2) Enable you to synthesize these ideas and consider your own in class discussions, critical reflection papers, and a thoughtful final essay exam (PABCC 2b).

Assessment

Assessment of these learning objectives will be accomplished by:

- 1) participating in class discussions (learning objectives 1 and 2),
- 2) completing four critical essays about the class readings (learning objectives 1 and 2), and
- 3) completing a take home exam essay and final presentation (learning objective 2).

Read and Participate (40%)

Read all material before class meetings and come to class ready to discuss the readings. Identify a set of discussion topics and add those to our timeline and theme document on Canvas before/at the start of class. Add to our collective timeline and notes project as you read each week. If you think about your class preparation and in-class experience as the beginning of a long term investment, you might find it useful to adopt a note taking strategy with this

long term view in mind. The notes on readings and your thoughts about them will help you prepare for exams, construct a dissertation project, and think about thinking for a lifetime.

Four Critical Essays (40%)

Select four class sessions and complete four critical essays of 6 – 10 pages about the readings in each session (one paper for each session). The objective is to think about and reflect on the material. Avoid summarizing the author's arguments and quoting extensively. Submit your essays on Canvas no later than the Monday following the week you write about. Please do your best to submit all work on time.

Take Home Final Exam (20%)

Reflect on the readings and discussions in a 6-10 page culminating essay. Essays are due before the final class meeting period.

Academic Integrity

Plagiarism will result in a grade of F or 0 for the assignment. If you have any questions about citing material, refer to an academic citation and style guide or ask me, another faculty member, or a research librarian. You can learn more about plagiarism and the Rutgers University policy on academic integrity here: <http://academicintegrity.rutgers.edu>
